Greg, Dan, and Mike,

Attached is the latest draft of Chapter 9 (TSF failure) FYI.

I'll be turning this in to Glenn and Kate late Thurs, after which time you'll see it compiled with the rest of the assessment.

There are quite a few outstanding comments; Steve Seville is working on those. But I thought you all might like a status update.

Of course, any comments/corrections are very welcome; either now, or in response to the compiled assessment.

Cheers,  
Joe
